For the Benefit of Jie Jie

With the Support of our Friends
and Families, the Beyond the
Placement Program has provided
a grant for the benefit of Jie Jie.
She is now home with her family.

Congratulations to Jie Jie and her
family.

BEYOND THE PLACEMENT

Many of the orphaned children currently available through adoption are older or have special needs. These children desperately need the love and care only a family can provide. These beautiful kids are waiting for the right family to come forward. With your support we can help find a waiting child a home.

With your donations we can provide grants to families that are adopting a waiting child. We can help by reducing the financial barriers for families that are adopting a special needs child, so the children can get the medical care, support and love they deserve.
